June – August 2009

## VPL Permanent Hair Reduction

Energist VPL treatments offer a safe, easy and long-term solution to unwanted hair, and a non-invasive way to reduce the visible signs of ageing and skin damage.

**"No-Pain-no-Gain"?  
NOT ANY MORE!**

VPL treatments using the Energist ULTRA VPL™ are virtually painless and very effective.

### What is VPL?

Pulsed light units emit light across a range of wavelengths, rather than a single wavelength like lasers. This allows a greater range of more gentle treatments to be performed on most skin and hair types.

Depending on the treatment being carried out, light emitted from the Energist VPL system is preferentially absorbed by specific targeted structures within the skin.

For hair removal, the melanin in the hair absorbs this light and is heated to a temperature which permanently inhibits the hair's growth.

For Skin Rejuvenation, various structures within the skin absorb this light and repair the damage caused by aging and the sun.

There are no adverse side-effects or lasting after-effects using VPL™, and the minimal discomfort means it is no problem being treated anytime, even in your lunch break!

### What can we treat with the VPL?

Excessive Hair Growth

Skin Rejuvenation – improving the signs of aging and sun damage

Thread vein and other skin blemish treatments

**JUNE SPECIAL BUY 4 TREATMENTS &

## Sothys Skin Care

The name Sothys (pronounced So-tis), is the name the ancient Egyptians gave to the most precious star shining brightly throughout the skies symbolising eternal beauty. The Sothys philosophy is very simple. It is based on the fundamental principle that every skin is different, and therefore not one ingredient or product is going to suit and work effectively on all skin types.

Sothys offer a complete skin-care solution that is specific to the five main skin types:

- Normal/Combination
- Sensitive

- Dry
- Oily/Acne
- Fragile Capillary

This ensures that every skin type is addressed with targeted solutions that will ensure not only effective visible results, but also comfort, and above all, safety.

Sothys have also developed a number of exclusive skin care programmes that are targeted at specific skin concerns, that require specific answers such as:

- Dehydration
- Dull skin

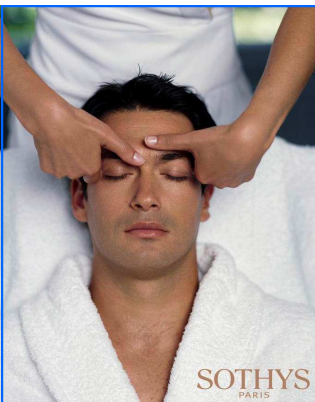

- Aging/Firming
- Pigmentation
- Regenerative

Here at Faye's Bodyworks, we have a number of facials to suit every client's specific needs. You will have a skin consultation prior to the facial to address any questions or concerns you may have.

The Sothys range also includes a complete range of products for home use.

This Winter Season, don't forget to come in and try the Sothys honey, green tea and cinnamon seasonal facial!

## Men's Treatments

A few years ago, the word "spa" was only associated with women. Today, men account for 35% of spa clients, meaning there has been an increase of 300% in less than 10 years. An impressive growth for any industry.

Recent statistics developed by the beauty institutes, clearly show that the interest of men in beauty products and beauty treatments is constantly growing. Due to the consumer demand, new lines of beauty products designed especially for men are coming onto the market.

Here at Faye's Bodyworks, we believe that men need to take care of their health, wellbeing and beauty. That's why we offer a number of services to our male clients also. These services include, waxing, manicures, pedicures, facials, spray tanning and massage.

We also have a range of men's skin care products, and with Father's Day just around the corner, why not take the opportunity in the coming months to come in and speak to one of our therapists about the perfect pamper pack for Dad!

**LA CLINICA**  
FOR SKIN & BODY

## Body Exfoliations and Wraps

Body exfoliation is an invigorating treatment where a blend of essential oils are used to exfoliate and detoxify the skin.

Benefits of a body exfoliation include skin feeling softer and silkier, removal of excess oil build up, increased blood circulation, and increased penetration of products into the skin, leaving you feeling relaxed and refreshed.

Exfoliation on a regular basis is highly recommended, and can assist in the prevention of ingrown hairs. We have a number of products suitable

for you, including home use.

In our body wrap treatments, we use detoxifying organic materials such as mud to draw toxins from the body. Body wraps are designed to improve the texture and appearance of the skin by helping to rid the body of excess fluid and toxins.

The benefits of body wraps may include body contouring, boosting the lymphatic system and metabolism, temporary inch lost, skin tightening and skin softening. Such deeply relaxing treatments are shown to decrease stress, thereby lowering blood

pressure.

Body exfoliation and body wraps are perfect for the Winter months. Come in and have one today!

# Bio Sculpture Gel Nails

*Healthier Nail Care*

Bio Sculpture offers a permanent nail colour that lasts for weeks without wearing or chipping. Bio Sculpture gel makes nails beautiful, flexible and strong. A superior product that will not damage your natural nails.

Bio sculpture gel is a one component nail treatment that strengthens and promotes the natural growth of natural nails. Applied onto a prepared nail, the gel cures under a UVA light, leaving the nail

strong but flexible with a glossy finish.

**Benefits of the Bio Sculpture Gel include:**

Over 100 fashionable colours, French and clear, with matching nail polish colours.

Thin, strong, flexible and natural looking.

Will not chip or smudge.

Excellent for toenails—will not wear away or smudge.

A nail treatment to strengthen and condition natural nails.

Removal is quick and easy—no damage to natural nails.

Nail colour can easily be changed with Bio sculpture nail polish, then wiped clean to reveal your original colour using the acetone-free polish remover.

Come in today and speak to us about the Bio Sculpture gel difference, and try them for yourself!

# Faye's Bodyworks Loyalty Program

Here at Faye's, we believe in rewarding our loyal clients for trusting us with your health and well-being. That's why we've recently started the 'Faye's Bodyworks Loyalty Program'.

In the coming weeks, all clients will receive the new loyalty card which will be stamped following every appointment if you have services done to the value of \$20 or more, or for every

\$40 you spend on products, you will receive a stamp. Once you have 5 stamps for either services or products, the savings begin!!!

**Conditions of the loyalty card include:**

- Not valid on specials.
- Not valid with any other offer.

- Minimum spent on services-\$20 per visit.
- 1 stamp per \$40 spent on products
- Loyalty card valid for 12 months from date of issue.

All you have to do is remember to bring your loyalty card with you on every visit!!!

# Daily Winter Skin Care at Home

The harsh weather of the Winter month brings with it a whole range of unwanted surprises to your skin. Many of our clients are unsure how they should be caring for their skin at home, or what products are right for them and their skin type.

We have developed a simple 5 step home care procedure that everybody can easily follow with only a few minutes a day.

**Step 1: Cleanser**

Apply a desired amount of cleanser to the fingertips. Emulsify with water using circular motions over the entire face and neck. Rinse thoroughly with warm water. Repeat if removing makeup or debris from the skin.

**Step 2: Toner/Lotion**

After cleansing, apply toner to cotton pads and wipe over the face and neck.

**Step 3: Serum**

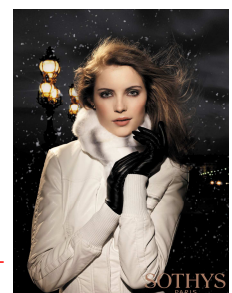

Apply the desired amount of serum (2 pumps) to the fingertips, and spread over the face and neck until absorbed.

**Step 4: Eye Cream**

Apply a small amount of eye cream to the fingertips and pat over the entire eye contour area.

**Step 5: Moisturise and Protect**

Gently massage moisturizing cream into the skin with an upward and outward motion all over face and neck. Ensure you follow with an SPF 30+ sunscreen, suitable for your skin type.

## June Special Laser Hair Removal

Welcome to the new range of Ecoya soy and palm wax candles at Faye's Bodyworks.

You will fall in love with this range of natural based fragrant candles using only the finest essential oils.

### The Natural Wax Bases Are:

- Longer, cooler and cleaner burning
- Bio-degradable, free from pesticides and herbicides
- Free from genetically modified material
- Excellent for scent throw with fragrance and essential oils
- Very stable, allowing for a long shelf life.

The products come in travel tins, everyday tins, metro jars, and palm wax pillars with burning times of between 50 and 150 hours, depending on the size.

If you enjoy burning oils, there are also melts available to buy in all the adjacent mentioned scents. —>

If you come into the salon, and we don't happen to have the exact candle you desire, we will order it in for you at no extra charge.

Perfect as a gift for any occasion, or just to have around the house, come in and indulge your senses with the perfect scent that's just right for you.

### Different Fragrances in the Ecoya Range Include:

- French Pear
- Bamboo White Lily
- Vanilla Bean
- Wild Frangipani
- Sweet Pea & Jasmine
- Lime & Sandalwood
- Rose Petal
- Sandalwood & Amber
- Mango White Tea
- Fig & Cassis
- Lotus Flower
- Lemongrass
